March 17, 2020

Last night, Ohio's State Officials were faced with a difficult choice, interrupt our democratic process or put communities at risk. Governor Mike DeWine recommended that Ohio's primary election be postponed until June 2, 2020. After seeking judicial support for postponement, DeWine's recommendation was struck down by Franklin County's Judge Fraye. What ensued was a chaotic development of news—with the election being scheduled and rescheduled numerous times. As it now stands, Ohio's primary election will be held June 2 and absentee mail-in ballots are recommended.

This situation is continually evolving, and we will do our best to keep everyone informed as things develop. Our utmost priority is to be responsible and accessible at this time. We will continue to share information on COVID-19 best practices for the safety of our community. We will also be working to keep our communities involved in the electoral process throughout this time.

Democracy is resilient. Though this is a frustrating time, please know that our campaign plans to continue to fight for change in Ohio's 5th District and free, fair, and safe elections.

Sincerely,

Nick Rubando
